

# August 29th ,25

**MR. JOSHY THOMAS- HEAD HRD, HYUNDAI**

The Leadership Dialogue Session, held on Friday, 29th August 2025 at MCC Boyd Tandon School of Business, was a fantastic event, where Mr. Joshy Thomas, Head of HRD at Hyundai, shared valuable insights on the topic “Future Ready: The Skills That Will Define Your Success.”

In his speech, Mr. Thomas stressed the vital need for growth mindset, adaptability, and emotional intelligence development in our rapidly changing corporate world. Students were urged to concentrate on continuous learning, digital literacy, and collaboration as primary skills of future leadership. With concrete instances from his professional voyage at Hyundai, he exhibited to the audience how innovation, resilience, and ethical decision-making are the pillars of long-term career success. The audience had the opportunity to participate in the session and they were prompted to think about their personal and professional ambitions which will help them face future problems with certainty and innovativeness. Faculty and students found Mr. Thomas’s method useful and his advice easy to relate as it connected what is learned in class to what is expected in the real world.

The event, thus, was a great opportunity to gain knowledge and be inspired, as it familiarized students with leadership and employability skills, thereby, reaffirming MCC BTSB’s commitment to producing future-ready leaders.
